## Special Issue on Infertility & Reproductive Medicine

### Call for Papers

Infertility & Reproductive Medicine is a specialized branch of medicine that focuses on diagnosing and treating infertility and other reproductive disorders in both men and women. It encompasses a wide range of topics, including the physiological processes of ovulation, fertilization, and implantation, as well as the underlying genetic, hormonal, or anatomical causes of infertility. This field employs various advanced techniques, such as in vitro fertilization (IVF), intrauterine insemination (IUI), and reproductive surgery, to assist individuals and couples in achieving pregnancy. Through a combination of research, clinical practice, and technological innovation, reproductive medicine aims to offer hope and solutions to those facing challenges in conceiving.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Infertility & Reproductive Medicine**. Potential topics include, but are not limited to:

- Assisted reproductive technologies (ART)
- Endocrinology and hormone regulation
- Reproductive genetics
- Fertility preservation
- Embryology
- Gynecologic reproductive surgery
- Reproductive immunology and pathology
- Polycystic ovary syndrome
- Endometriosis
- Reproductive disorders and therapy
- Innovative reproductive technologies

**Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).**

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Infertility & Reproductive Medicine**” should be chosen during your submission.

According to the following timetable:

Scientific Research  
*Open Access*

**Open Journal of Obstetrics  
and Gynecology**  
ISSN Online: 2160-8806
