

Special Issue on Clinical Orthopedics and Trauma

Call for Papers

Clinical Orthopaedics and Trauma is a medical specialty that focuses on the diagnosis, treatment, and management of conditions related to the musculoskeletal system. This includes bones, joints, cartilage, muscles, ligaments, and tendons. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Clinical Orthopedics and Trauma.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Clinical Orthopedics and Trauma**. Potential topics include, but are not limited to:

- Fractures and dislocations
- Sports medicine and injuries
- Arthritis and joint disorders
- Spine disorders
- Bone and joint tumors
- Degenerative joint disease
- Osteoporosis
- Orthopedic trauma
- Pediatric orthopedics
- Rehabilitation and physical therapy
- Diagnosis, treatment and prevention of bone disease
- Biological orthopedic materials and clinical research
- Foot and ankle clinics
- Biological or engineering research on musculoskeletal diseases
- Techniques and advances in orthopedic surgery
- Orthopedic and trauma nursing
- Bone fracture
- Sports injuries and treatment
- Tendon injury
- Ligament injury

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Clinical Orthopedics and Trauma***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 20th, 2024
Publication Date	November 2024
