Editor-in-Chief

Prof. Moran Wang
Tsinghua University, China

Editorial Board

Dr. Brahim Benyahia
Massachusetts Institute of Technology, USA

Prof. Wanyang Dai
Nanjing University, China

Prof. Mohsen Elhafsi
University of California-Riverside, USA

Prof. Wenhao Gui
University of Minnesota Duluth, USA

Prof. Karim Hamza
University of Michigan, USA

Prof. Onésimo Hernández-Lerma
CINVESTAV-IPN, Mexico

Dr. Kun-Lin Hsieh
National Taitung University, Chinese Taipei

Dr. Qinma Kang
Shandong University at Weihai, China

Prof. Vassili Kolokoltsov
University of Warwick, UK

Dr. Zhenhong Lin
Oak Ridge National Laboratory, USA

Prof. Yinghua Liu
Tsinghua University, China

Dr. Giuseppe De Marco
University of Naples “Parthenope”, Italy

Prof. Vishwa Nath Maurya
University of Fiji, Fiji

Prof. D. Subbaram Naidu
Idaho State University, USA

Dr. Mohammad Reza Shadnam
KPMG, Canada

Dr. Dengfeng Sun
Purdue University, USA

Prof. Dexiang Wang
Juniper Networks, USA
Table of Contents

Volume 8  Number 3  September 2019

Application of Optimization Principle in Landmark University Project Selection under Multi-Period Capital Rationing Using Linear and Integer Programming
N. K. Oladejo.................................................................73

Optimization of Specific Draft Requirement and Hitch Length for an Animal Drawn Sub-Soiler: A Case of Sandy Clay Loam Soils
N. K. Mwonga, A. N. Gitau, J. M. Mutua, S. T. Mwangi.................................................................83

A Lagrange Relaxation Based Approach to Solve a Discrete-Continuous Bi-Level Model
Z. E. Alarcón-Bernal, R. Aceves-García.................................................................100
Open Journal of Optimization (OJOp)

If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: ojop@scirp.org
Open Journal of Optimization (OJOp) is an open access journal published quarterly. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in all aspects of optimization.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

**Applications of Optimization in Science and Engineering**
- Aerospace, Automotive, Biomedical, Chemical, Civil, Electrical, Environmental, Industrial, Mechanical, Mining, Naval, Structural, Robotics and Transportation Engineering
- Biology, Toxicology and Forestry
- Computer-Aided Design, Design Automation, Multi-Disciplinary Design, Topology Optimization
- Control Theory, Dynamic Systems and Vibrations
- Energy Systems and Sustainability
- Financial Systems, Business, Management, Economics, Accounting, Supply-Chains and Inventory Control
- Information Technology and Software Development
- Reliability and Robust Design

**Optimization Methods and Theories**
- Calculus of Variations
- Dynamic Programming
- Evolutionary Computation
- Game Theory
- Graph Theory
- Heuristic Algorithms
- Linear and Nonlinear Programming
- Network Algorithms
- Optimal Control
- Stochastic and Parametric Programming
- Swarm Intelligence
- Test Problems for Optimization Algorithms

**Optimization of Computational Techniques**
- Meta-Modeling, Neural Networks and Fuzzy Logic
- Numerical Methods and Large-Scale Systems
- Social Systems Modeling
- Time Series Analysis and Forecasting

Notes for Intending Authors

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

Website and E-Mail

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

• High visibility for maximum global exposure with open access publishing model
• Rigorous peer review of research papers
• Prompt faster publication with less cost
• Guaranteed targeted, multidisciplinary audience
