

Special Issue on Human Pathology

Call for Papers

Human pathology is a field of medical science that focuses on the study and diagnosis of diseases in human beings. It involves the examination of tissues, organs, and bodily fluids to understand the nature and causes of diseases, as well as their effects on the human body. It plays a critical role in healthcare by advancing our understanding of diseases, improving patient care, and ultimately promoting human health and well-being..

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Human Pathology**. Potential topics include, but are not limited to:

- Pathogenesis
- Disease mechanisms
- Diagnostic pathology
- Prognostic pathology
- Histopathology
- Molecular pathology
- Cellular pathology
- Immunohistochemistry
- Tumor pathology
- Infectious diseases
- Genetic disorders
- Autoimmune diseases
- Inflammatory diseases
- Neurological disorders
- Cardiovascular diseases
- Gastrointestinal diseases
- Respiratory diseases
- Renal diseases
- Endocrine disorders
- Hematopathology
- Dermatopathology
- Cytopathology
- Oncopathology
- Surgical pathology
- Clinical pathology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Human Pathology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 18th, 2023
Publication Date	January 2024
