Special Issue on Pediatric Neurology

Call for Papers

The discipline of pediatric neurology encompasses disorders of the brain, spinal cord, peripheral nerve and muscle affecting infants, children and adolescents.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Pediatric Neurology. Potential topics include, but are not limited to:

- Acute neurological emergencies
- Neurocritical care and trauma
- EEG monitoring
- Neurological disorders
- Neurodevelopmental disorders
- Management of seizures and epilepsy
- Neuroimmunology
- Neurotoxicology
- Neurosurgery
- Neurogenetics
- Neurobiological mechanisms
- Metabolic disorders
- Movement disorders
- Neuromuscular conditions
- Cerebrovascular disorders
- Brain and spinal tumors
- Neonatal neurology
- Congenital anomalies
- Autism spectrum disorder
- Intellectual and cognitive disabilities
- Hydrocephalus

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Pediatric Neurology” should be chosen during your submission.
According to the following timetable:
