## Special Issue on Pediatric Respiriology

### Call for Papers

Pediatric respirology is a medical subspecialty concerned with the study, diagnosis and management of the respiratory system of newborns, infants, and children in health and disease and the prevention of respiratory disease.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Pediatric Respirology**. Potential topics include, but are not limited to:

- Respiratory tract infections
- Allergic rhinitis
- Apnea
- Chronic coughing
- Reoccurring pneumonia
- Cystic fibrosis
- Asthma
- Bronchoscopy
- Allergy and immunology
- Bronchopulmonary dysplasia
- Primary ciliary dyskinesia
- Neuromuscular disease
- Complex respiratory issues
- Chronic pulmonary disorders
- Congenital malformations
- Assisted ventilation
- Other respiratory disorders
- Pneumonia caused by COVID-19

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Pediatric Respirology**” should be chosen during your submission.

According to the following timetable:
