## Special Issue on Dentistry and Oral Health

### Call for Papers

Dentistry is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Oral health is a key indicator of overall health, well-being and quality of life. It encompasses a range of diseases and conditions that include dental caries, periodontal (gum) disease, tooth loss, oral cancer, oro-dental trauma, noma and birth defects such as cleft lip and palate.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Dentistry and Oral Health**. Potential topics include, but are not limited to:

- Dental problems: diagnosis, treatment and prevention
- Endodontics
- Orthodontics
- Prosthodontics
- Dental surgery
- Implant dentistry
- Oral biology
- Oral cancer
- Periodontal disease
- Oral health-related risk factors
- Preventive dentistry and public oral health
- Oral health during the COVID-19 pandemic
- Biomaterials in dentistry
- Oral health & cosmetics
- Tissue engineering and regeneration
- Information technology for oral health
- Oral health and quality of life

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Dentistry and Oral Health**” should be chosen during your submission.

According to the following timetable:

---

Submission Deadline	July 18th, 2022
Publication Date	September 2022
