

Special Issue on Dentistry and Oral Health

Call for Papers

Dentistry and Oral Health is an academic field that focuses on the study and practice of diagnosing, treating, and preventing oral diseases and conditions. It encompasses various areas, including oral anatomy, dental hygiene, oral surgery, endodontics, periodontics, and orthodontics. Dentistry professionals aim to promote and maintain oral health by providing treatments like dental cleanings, cavity fillings, tooth extractions, and orthodontic corrections. They also educate individuals on proper oral hygiene practices and preventive measures to ensure long-term dental health.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Dentistry and Oral Health**. Potential topics include, but are not limited to:

- Oral microbiology
- Oral biology
- Hygiene, preventive dentistry and public oral health
- Periodontal disease
- Restorative dentistry
- Dental surgery
- Oral cancer
- Oral implant
- Digital dentistry
- Dental materials
- Dental public health
- Oral and maxillofacial surgery
- Endodontics
- Periodontics
- Orthodontics
- Prosthodontics
- Pathology
- Radiology
- Anesthesiology
- Dentistry health for Children
- Dental for elderly people
- Oral health promotion
- Nutrition, oral health and care

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Dentistry and Oral Health**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 3rd, 2024
Publication Date	June 2024
