

Special Issue on
Oral & Maxillofacial Surgical Approaches
Call for Papers

"Oral & Maxillofacial Surgical Approaches" is an academic topic that focuses on the diagnosis, treatment, and surgical management of conditions affecting the mouth, jaws, face, and associated structures. Researchers in this field study various surgical approaches and techniques used in oral and maxillofacial surgery, including dental implant placement, orthognathic surgery, facial trauma reconstruction, and the removal of oral tumors and cysts. They investigate advancements in surgical tools, imaging technologies, and treatment planning to optimize outcomes and improve patient care in the field of oral and maxillofacial surgery.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Oral & Maxillofacial Surgical Approaches**. Potential topics include, but are not limited to:

- Dental implantology
- Orthognathic surgery
- Maxillofacial trauma surgery
- Temporomandibular joint disorders and surgery
- Cleft lip and palate repair
- Oral and maxillofacial pathology
- Surgical management of oral and maxillofacial infections
- Reconstruction and grafting techniques in oral and maxillofacial surgery
- Distraction osteogenesis for maxillofacial deformities
- Surgical treatment of oral and maxillofacial tumors and cysts
