## Table of Contents

**Volume 7  Number 3  June 2017**

**Stock Exchanges Comparison between Mainland China and H.K. Based on the SVL Model**  
J. H. Lin.................................................................................................................................383

**New Efficient Estimators of Population Mean Using Non-Traditional Measures of Dispersion**  
R. K. Gupta, S. K. Yadav.......................................................................................................394

**Confidence Intervals for the Mean of Non-Normal Distribution: Transform or Not to Transform**  
J. Pek, A. C. M. Wong, O. C. Y. Wong..................................................................................405

**Pregnancy Air Exposure: An R Package for Estimation of Exposure to Air Pollution during Critical Windows of Pregnancy**  

**Asymptomatic Distribution of Goodness-of-Fit Tests in Logistic Regression Model**  
N. H. S. Badi..........................................................................................................................434

**Numerical Methods for Discrete Double Barrier Option Pricing Based on Merton Jump Diffusion Model**  
M. J. Li......................................................................................................................................446

**Maximum Entropy Empirical Likelihood Methods Based on Laplace Transforms for Nonnegative Continuous Distribution with Actuarial Applications**  
A. Luong.................................................................................................................................459

**Why It Is Problematic to Calculate Probabilities of Findings Given Range Null Hypotheses**  
D. Trafimow............................................................................................................................483

**Modeling Abstraction Hierarchy Levels of the Cyber Attacks Using Random Process**  
G. Durrieu, E. Frenod, T. Morineau, T. Q. Nguyen.................................................................500

**A Comparison of Hierarchical Bayesian Models for Small Area Estimation of Counts**  
M. Trevisani, N. Torelli.........................................................................................................521

Open Journal of Statistics

ISSN 2161-718X (Print)  ISSN 2161-7198 (Online)
http://www.scirp.org/journal/ojs

Open Journal of Statistics (OJS) is an international journal dedicated to the latest advancement of statistics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of statistics.

Editor-in-Chief

Prof. Qihua Wang
Chinese Academy of Sciences, China

Editorial Board

Prof. Ana M. Aguilera
Prof. Essam K. Al-Hussaini
Prof. Eran R. Barrios
Prof. Alexander V. Bulinski
Prof. Junsoo Lee
Prof. Taeg-Hwy Lee
Dr. Qizhai Li
Dr. Xuewen Lu
Prof. Claudio Morana

Prof. Thu Pham-Gia
Prof. Gengsheng Qin
Prof. Kalyan Raman
Prof. Mohammad Z. Raqab
Dr. Jose Antonio Roldán-Nofuentes
Prof. Sunil K. Sapra
Prof. Raghu Nandan Sengupta
Prof. Siva Sivaganesan
Prof. Jianguo Sun

Prof. Aida Toma
Dr. Florin Vaida
Dr. Haiyan Wang
Prof. Augustine Chi Mou Wong
Dr. Peng Zeng
Dr. Jin-Ting Zhang
Prof. Yichuan Zhao
Dr. Wang Zhou

Subject Coverage

This journal invites original research and review papers that address the following issues in statistics. Topics of interest include, but are not limited to:

- Actuarial science
- Applied information economics
- Asymptotic statistics
- Bayesian statistics
- Biostatistics
- Business statistics
- Causal inference
- Chemometrics
- Computational statistics
- Data mining
- Decision theory
- Demography
- Descriptive statistics
- Design of experiments
- Econometrics
- Energy statistics
- Engineering statistics
- Epidemiology
- Estimation theory
- Geographic information systems
- Graph models and related theory
- High dimensional data analysis
- Image processing
- Multivariate analysis
- Non-parametric statistics
- Parametric statistics
- Psychological statistics
- Regression analysis
- Reliability
- Reliability engineering
- Sample survey
- Sampling theory
- Semiparametric statistics
- Social statistics
- Statistical analysis with complex data
- Statistical computing
- Statistical inference
- Statistical methods
- Survival analysis
- Theoretic methods
- Time series analysis

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the OJS.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
