

# Table of Contents

**Volume 13    Number 2**

**April 2023**

**Bayesian Set Estimation with Alternative Loss Functions: Optimality and Regret Analysis**

F. De Santis, S. Gubbiotti.....195

**Unsupervised Functional Data Clustering Based on Adaptive Weights**

Y. T. Gao, S. Chen.....212

**Time Series Analysis and Prediction of COVID-19 Pandemic Using Dynamic Harmonic Regression Models**

L. Wang.....222

**Probability Distribution of SARS-Cov-2 (COVID) Infectivity Following Onset of Symptoms: Analysis from First Principles**

M. P. Silverman.....233

**Two-Stage Procrustes Rotation with Sparse Target Matrix and Least Squares Criterion with Regularization and Generalized Weighting**

N. Yamashita.....264
