

## Special Issue on Clinical Urology

### Call for Papers

Urology is a part of health care that deals with surgical and medical diseases of the male and female urinary-tract system and the male reproductive organs, which include the health problems in the kidneys, adrenal glands, ureters, urinary bladder, urethra, testes, epididymis, vas deferens, seminal vesicles, prostate, and penis. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Clinical Urology.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Clinical Urology**. Potential topics include, but are not limited to:

- Bladder cancer
- Erectile dysfunction
- Hematuria
- Kidney stone disease
- Male infertility and andrology
- Neurourology
- Pediatric urology
- Prostate disease
- Renal transplant
- Reconstructive urology
- Testicular cancer
- Urinary dysfunction
- Urinary incontinence
- Urinary tract infection
- Urologic oncology
- Urologic health

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Clinical Urology**” should be selected during your submission.

Special Issue Timetable:

---

|                     |                  |
|---------------------|------------------|
| Submission Deadline | April 25th, 2024 |
| Publication Date    | June 2024        |
