

Special Issue on Animal Embryology

Call for Papers

Embryology—the study of embryos—is the branch of biological science that examines the formation and early development of an individual organism from fertilization of the egg (ovum) to birth.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Animal Embryology**. Potential topics include, but are not limited to:

- Molecular embryology
- Embryogenesis
- Clinical embryology
- Animal epidemic Prevention
- Animal medicine
- Animal anatomy
- DNA diseases
- Embryonic transfer
- Transcriptional profiling
- Embryonic development
- Gene mapping
- Genetic code
- Genetic disorder

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Animal Embryology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 15th, 2016
Publication Date	January 2017
