

Special Issue on Zoonoses

Call for Papers

Zoonoses refer to the natural transmission of diseases and infections between human and animals. Zoonotic transmission can occur in any context in which there is companionistic (pets), economic (farming, etc.), predatory (hunting, butchering or consuming wild game) or research contact with or consumption of animals, animal products, or animal derivatives (vaccines, etc.). The current situation and development trend of zoonoses is an important issue concerning human health and the healthy development of animal husbandry.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **zoonoses**. Potential topics include, but are not limited to:

- Emerging zoonoses
- Parasitic zoonoses
- Viral zoonoses
- Foodborne zoonoses
- Control and prevention of zoonoses
- Zoonoses surveillance

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Zoonoses**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	May 8th, 2018
Publication Date	July 2018
