

## Special Issue on Immunopharmacology

### Call for Papers

**Immunopharmacology** focuses on the mechanism of action of pharmacologic agents that regulate immune response and the physiologic, pathologic, and pharmacologic role of the products of immune response.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **immunopharmacology**. Potential topics include, but are not limited to:

- Cytokines and receptors
- Immunosuppressive drugs
- Monoclonal antibodies
- Mechanisms and immunotherapy of allergic disease
- Acquired immune deficiency disease
- Regulatory T cells
- Gene therapy

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Immunopharmacology**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	August 20th, 2015
Publication Date	October 2015
