

Special Issue on Cognitive Psychology

Call for Papers

Cognitive psychology is the study of mental processes such as "attention, language use, memory, perception, problem solving, creativity, and thinking". Much of the work derived from cognitive psychology has been integrated into various other modern disciplines of psychological study, including educational psychology, social psychology, personality psychology, abnormal psychology, developmental psychology, and economics.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **cognitive psychology**. Potential topics include, but are not limited to:

- Performance of attention, perceptions, thinking and motivation
- Working memory and long-term memory
- Mental processes, cognitive control and cognitive development
- Psychological models of decision making
- Language acquisition and learning disability
- Mind, memory and emotion
- Hallucinations and episodic memory disorders
- Cognitive behavior therapy
- Metacognitive skills
- Social cognition
- Psychology and behavioral neuroscience

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – Cognitive Psychology**" should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 30th, 2019
Publication Date	June 2019
