

Special Issue on
Emotion, Behavior and Psychological Study
Call for Papers

Emotion is a mental state that arises spontaneously rather than through conscious effort and is often accompanied by physiological changes. Such mental states or the qualities that are associated with them, especially in contrast to reason: a decision based on emotion rather than logic. It's an affective state of consciousness in which joy, sorrow, fear, etc., is experienced, as distinguished from cognitive and volitional states of consciousness.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Emotion, Behavior and Psychological Study**. Potential topics include, but are not limited to:

- Mood and psychological disorders
- Theories of emotion
- Emotions in behavior systems
- Emotion and psychological mechanisms
- Emotion on learning and memory
- Emotion recognition and social behaviors
- Social and emotional patterns
- Positive interventions and emotion regulation
- Cognitive behavioral therapy
- Personality and emotion
- Emotion, cognition, and mental state
- Emotion, motivated behavior and achievements
- Health benefits of positive emotions
- Maladaptive and adaptive emotion regulation
- Socioemotional development in childhood

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Emotion, Behavior and Psychological Study**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	February 1st, 2022
Publication Date	April 2022
