

Special Issue on Applied Cognitive Psychology

Call for Papers

Cognitive psychology is the scientific study of mental processes such as attention, language use, memory, perception, problem solving, creativity, and reasoning. It is about the mental processes involved in acquiring and making use of the knowledge and experience gained from our senses, and also those involved in planning action. Applied cognitive psychology is concerned with the investigation of how cognitive processes affect our behavior and performance in real-life settings.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Applied Cognitive Psychology**. Potential topics include, but are not limited to:

- Applied cognitive science and human factors
- Knowledge, skills, and abilities
- Memory development
- Cognitive development
- Language acquisition and development
- Cognitive neuroscience and psychology
- Cognitive perspectives on behaviors
- Psychology of creativity
- Cognitive and affective regulation
- Motivation, emotion and behaviors
- Human reasoning and decision-making
- Perception, action, attention and communications
- Sensory processing disorders and therapy
- Cognitive behavioral therapy
- Cognitive perspectives on personality
- Problem solving
- Stress management
- Human-computer interaction
- Applied cognitive psychology in education

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Applied Cognitive Psychology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	May 25th, 2022
Publication Date	July 2022
