

Special Issue on Cognitive Psychology

Call for Papers

Cognitive psychology is the scientific study of mental processes such as attention, language use, memory, perception, problem solving, creativity, and reasoning. It is about the mental processes involved in acquiring and making use of the knowledge and experience gained from our senses, and also those involved in planning action.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Cognitive Psychology**. Potential topics include, but are not limited to:

- Computational approaches
- Cognitive modeling
- Cognitive abilities
- Cognitive control
- Decision-making
- Cognitive development
- Learning, memory and metacognition
- Cognitive differences and intelligence
- Working memory
- Perception
- Attention
- Language and cognition
- Cognitive psychology in education
- Cognition and personality
- Cognition and emotion
- Impulsivity
- Visual perception
- Information processing
- Comparative cognitive science
- Social cognition
- Reasoning and problem solving
- Executive dysfunction
- Cognitive behavioral therapy
- Behavioral interventions

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Cognitive Psychology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 15th, 2022
Publication Date	February 2023
