

Special Issue on Cognitive Psychology

Call for Papers

Cognitive psychology is the scientific study of mental processes such as attention, language use, memory, perception, problem solving, creativity, and reasoning. It is about the mental processes involved in acquiring and making use of the knowledge and experience gained from our senses, and also those involved in planning action.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Cognitive Psychology**. Potential topics include, but are not limited to:

- Behavioral and computational approaches
- Memory and imagination
- Learning, memory and metacognition
- Intelligence and working memory
- Perception and human performance
- Language and cognition
- Cognition and emotion
- Cognitive control
- Cognitive development
- Aging and cognition
- Mental models in cognitive change
- Decision-making
- Reasoning and problem solving
- Cognition and personality
- Social cognition
- Cognitive interventions
- Cognitive psychology in education
- Applications

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Cognitive Psychology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 14th, 2023
Publication Date	August 2023
