

Special Issue on Thoughts and Ideas

Call for Papers

Thought is a mental process that keeps on going in the mind unabated. Idea refers to a plan or a process that occurs in the mind in relation to the completion of a work or duty. This issue focuses on the creative thoughts and ideas in human brain. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Thoughts and Ideas.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Thoughts and Ideas**. Potential topics include, but are not limited to:

- Aristotelianism and conceptualism
- Associationism
- Behavior and attitude
- Beliefs
- Brainstorming
- Computationalism
- Concept formation
- Contemplation
- Counterfactual thinking
- Creativity and innovation
- Critical thinking
- Deliberation and decision
- Idea and concept
- Ideation
- Imagination
- Insight
- Inspiration
- Intellectual curiosity
- Intuition
- Judging, and reasoning
- Knowledge
- Laws of thought
- Perspective
- Phenomenology
- Platonism
