Soft Nanoscience Letters (SNL) is a newly launched multidisciplinary peer-reviewed journal covering fundamental and applied research in the field of soft nanoscience, which includes polymers and colloids. This will necessarily address nanostructured polymers (e.g. block copolymers), nanocomposites, physical gels, microemulsions, surface/interface modification, new processes (e.g. electrospinning/spraying), confinement effects, the organic/biological interface, and responsive/functional polymers. Results may be experimental, theoretical or simulation in nature.
