## Special Issue on Economic Growth

### Call for Papers

**Economic growth** is the increase in the inflation-adjusted market value of the goods and services produced by an economy over time. It is conventionally measured as the percent rate of increase in real gross domestic product, or real GDP. It concerns economic issues about growth models, income distribution, human capital, production, trade, migration, money, political policy, and economic fluctuations.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **economic growth**. Potential topics include, but are not limited to:

- Intensive growth and extensive growth
- Measures of productivity
- Factors affecting growth
- Theories and models of economic growth
- Environmental and physical constraints
- Human capital and growth

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Economic Growth**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	November 22nd, 2018
Publication Date	January 2019
