

Special Issue on
Innovative Finance and Economics
Call for Papers

Financial innovation is the act of creating new financial instruments as well as new financial technologies, institutions, and markets. Innovation economics is a growing economic theory that emphasizes entrepreneurship and innovation. Innovation is the process of creating new technologies and using them in the economy.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Innovative Finance and Economics**. Potential topics include, but are not limited to:

- Innovative financial strategies
- Financial innovation: theories, models and regulation
- Competition and innovation
- Financing entrepreneurship and innovation
- Innovation in financial markets
- Global investment and innovation incentives
- Technology, innovation and industrial economics
- Financial innovation and optimization
- Digital economy, innovation and growth
- Risk management for financial innovation

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Innovative Finance and Economics**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	Augusts 12th, 2021
Publication Date	October 2021
