

Special Issue on Economics of Sustainability

Call for Papers

Economics of sustainability is about complex interaction between the economy and environment, and provide insights into how this integrated system could be made more sustainable.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Economics of Sustainability**. Potential topics include, but are not limited to:

- Quantitative methods in modelling sustainability
- Sustainable economic development strategies
- Economic growth and the environment
- Ecological economics and sustainability
- Economics of waste management
- Sustainable development policy
- Green economy, business and marketing
- E-commerce and sustainability
- Sustainable economics, management and innovations
- Sustainable consumption and production
- Globalization, industrialization and sustainable development
- Environmental, social and economic sustainability

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Economics of Sustainability**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	July 26th, 2022
Publication Date	September 2022
