

Special Issue on Monetary Economics

Call for Papers

Monetary economics is the branch of economics that studies the different competing theories of money: it provides a framework for analyzing money and considers its functions (such as medium of exchange, store of value and unit of account), and it considers how money, for example fiat currency, can gain acceptance purely because of its convenience as a public good.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Monetary Economics**. Potential topics include, but are not limited to:

- Quantity theory of money
- Monetary transmission mechanism
- Monetary system
- Monetary reform
- Economic and monetary policy
- Fiscal policy
- Political economy of money and finance
- Macroeconomics and monetary economics
- Money supply and inflation
- Interest, inflation and growth
- International monetary economics
- Credit theory of money
- Economics of bank regulation
- Monetary policy and public finance
- Financial crisis
- Uncertainty and economic fluctuations
- Monetarism

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Monetary Economics**” should be chosen during your submission.

According to the following timetable:

Scientific Research
Open Access

Theoretical Economics Letters

ISSN Online: 2162-2086

Submission Deadline	May 30th, 2023
Publication Date	July 2023
