Special Issue on Models for Economics and Finance

Call for Papers

"Models for Economics and Finance" refers to the development and use of mathematical and statistical frameworks to analyze, predict, and interpret economic and financial phenomena. This interdisciplinary field combines economic theory, mathematics, and statistics to construct models that simulate market behaviors, economic trends, and financial risks. These models range from those that analyze consumer behavior and firm dynamics to complex algorithms predicting stock market movements and asset pricing. By applying these models, economists and finance professionals can better understand market mechanisms, forecast economic conditions, and make informed decisions on policy, investment, and risk management. As technology and data analysis methods advance, these models become increasingly sophisticated, offering deeper insights into the functioning of economic systems and financial markets.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Models for Economics and Finance. Potential topics include, but are not limited to:

- Mathematical and economic modelling
- Behavioral economics models
- Macroeconomic models
- Microeconomic models
- Stochastic models
- Qualitative models
- Economic growth model
- Models of financial markets
- Pricing strategies & models
- Asset pricing
- Decision-making models
- Trade model
- Econometric models
- Portfolio optimization model
- Financial risk management models
- Corporate finance models
- International finance models

Authors should read over the journal’s For Authors carefully before submission.
Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Models for Economics and Finance” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>August 8th, 2024</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>October 2024</td>
</tr>
