Volume 1 Number 3

November 2013

New Solution of Substrate Concentration in the Biosensor Response by Discrete Homotopy

Analysis Method

S. A. M. Tonekaboni, A. S. M. Abad, S. Karimi, M. Shabani.....27

Experimental Investigation of Progressive Collapse of Steel Frames

K. S. Kandil, E. A. El Fattah Ellobody, H. Eldehemy.....33

Progressive Collapse of Steel Frames

K. S. Kandil, E. A. El Fattah Ellobody, H. Eldehemy.....39

Pressure-Driven Demand and Leakage Simulation for Pipe Networks Using Differential Evolution

N. Moosavian, M. R. Jaefarzadeh.....49

Usability of Polymer Concrete as a Machine-Making Material Regarding Fatigue Strength

E. Ateş, M. N. Gerger.....59

The figure on the front cover is from the article published in World Journal of Engineering and Technology, 2013, Vol. 1, No. 3, pp. 33-38 by Kamel Sayed Kandil, Ehab Abd El Fattah Ellobody and Hanady Eldehemy.
