Volume 8 Number 5

May 2018

Unsteady MHD Mixed Convection Flow with Slip of a Nanofluid in the Stagnation Region of an Impulsively Rotating Sphere with Effects of Thermal Radiation and Convective Boundary Conditions

S. E. Ahmed, Z. Z. Rashed.....137

The Confinement Effect of Inert Materials on the Detonation of Insensitive High Explosives

M. Yu.....161

Numerical Studies of Resonance and Secular Effects of Gravitational Waves

M. H. A. Youssef.....182

Inverse Problems for an Euler-Bernoulli Beam: Identification of Bending Rigidity and External Loads

H. Katori.....192

Investigation of the Effects of Profile Shift in Helical Gear Mechanisms with Analytical and Numerical Methods

G. Karadere, I. Yilmaz.....200

On the Reactivation of the Pre-Existing Normal Fault

S. P. Chen, Z. P. Chen.....210
