

Special Issue on Neurophysiology

Call for Papers

Neurophysiology is concerned with the study of the functioning of the nervous system. It features a broad, interdisciplinary scope, which is related to electrophysiology, neurobiology, psychology, neurology, clinical neurophysiology, neuroanatomy, cognitive science, biophysics, mathematical biology, and other sciences concerning the brain.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Neurophysiology**. Potential topics include, but are not limited to:

- Brain stimulation
- Dopaminergic neuron
- Electrophysiology
- Neural mechanisms
- Neuromuscular disease
- Neuropeptide
- Neurophysiologic monitoring
- Sensorimotor rhythms
- Synaptic plasticity
- White matter

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Neurophysiology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	December 30th, 2016
Publication Date	February 2017
